EXECUTIVE DIRECTOR

By: Raquel Pacheco
Regional Planner III

SUBJECT: Federal Funds Obligated During 2008 – 2009

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2008-2009 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2009,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at www.kerncog.org under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19th Street, Suite 300, Bakersfield, California 93301

Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2009

**Kern Council
of Governments**

December 2009

1401 19th Street, Suite 300

Bakersfield, CA 93301

Phone: 661.861.2191

Fax: 661.324.8215

Website: www.kerncog.org

Purpose

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2009. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

Background

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

Who are the members, their representatives, and how do they vote?

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

The Regional Transportation Plan

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

The Federal Transportation Improvement Program

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

Public Involvement

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2009

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$93 million in federal funds were obligated for transportation projects in the region between October 1, 2008 and September 30, 2009.

The obligated federal funding consisted of approximately \$2 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; five projects had bicycle/pedestrian components. \$8.1 million of Federal Transit Administration (FTA) funds were obligated for transit projects and none was transferred from FHWA to FTA for transit projects.
