Kern Council of Governments Board of Directors

The Kern Council of Governments is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. This intergovernmental coordination enables staff to work with many public agencies to ensure that planning and implementation of programs proceed in a coordinated manner.

BEFORE THE KERN COUNCIL OF GOVERNMENTS
STATE OF CALIFORNIA, COUNTY OF KERN

RESOLUTION NO. 01-37

In the matter of:

ADOPTION OF THE 2002 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, The Kern Council of Governments (Kern COG) is a Regional Transportation Planning Agency (RTPA) and a Metropolitan Planning Organization (MPO); and

WHEREAS, the State Transportation Improvement Program (STIP) is a statement of intent by the California Transportation Commission (CTC) and a schedule of project delivery for the allocation of funds during a four-year period to major transportation projects; and

WHEREAS, the CTC has adopted programming policies, instructions and criteria for the 2002 STIP process; and

WHEREAS, Kern COG is required by the CTC to prepare, adopt and submit a four-year regional transportation improvement program (RTIP) by December 15, 2002; and

WHEREAS, the 2002 RTIP has been prepared by Kern COG in cooperation with its member agencies, CALTRANS and the California Transportation Commission in accordance with the 2002 STIP process; and

WHEREAS, all currently programmed projects in the 2000 STIP cycle from 2000-01 to 2005-06 are also considered part of the 2002 Proposed STIP; and

WHEREAS, the candidate projects included in the 2002 RTIP to be considered for programming in the 2002 STIP are listed in Attachment A; and

WHEREAS, the 2002 RTIP has been reviewed for consistency with the adopted Regional Transportation Plan and the CTCs adopted STIP fund Estimate for Kern County; and

WHEREAS, the Kern COG Transportation Policy Committee held a public hearing on November 15, 2001 to consider testimony on the 2002 RTIP

NOW, THEREFORE, BE IT RESOLVED THAT: the Kern COG Transportation Planning Policy Committee does hereby adopt the 2002 Regional Transportation Improvement Program.

AUTHORIZED AND SIGNED THIS 15TH DAY OF NOVEMBER 15, 2001.

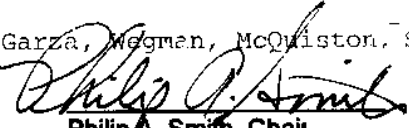

AYES: Acevedo, Couch, Eddington, Throop, Carter, Nelson, Ackermann, Smith, Parra, McCuen

Kern Council of Governments

EXECUTIVE SUMMARY

Funding Overview

The Kern Council of Governments (Kern COG) 2002 Regional Transportation Improvement Program (RTIP) identifies programming for the County Share amount of \$90,110,000 comprised mostly of new cycle funding and a small portion of carryover from the previous cycle. The Kern COG submittal is comprised of new projects, projects that were continued from the 2000 State Transportation Improvement Program (STIP) and a request to program funding in future mid-cycle STIP amendments using the remaining balance of new County Share. Some of the new projects are Partnership projects with adjacent counties.

State-Only Funding

A "State-Only" funding request is listed below in lieu of project nomination and funding sheets for a portion of the remaining \$7,900,000. Staff expects that when individual projects are identified, they will be amended into the 2002 STIP with "state-only" requests for each. A state-only request list is given below:

- | | |
|--|--------------|
| • PPM Program | \$ 900,000 |
| • TCM Program | \$ 750,000 |
| • Reserve for future Rehabilitation projects | \$ 5,000,000 |

Program of Projects Summary

On the following page, a summary chart is provided showing all of the proposed project submittals. The main body of this submittal contains required project information sheets and funding sheets for each proposed project. The exception to that is the remaining balance of \$7,900,000 of Regional Improvement Program dollars. Staff requests that this reserve be allocated for use during the 2002 RTIP cycle via amendment. The \$7,900,000 balance is proposed for later use in the mid-cycle of the 2002 RTIP. Part of that use will include approximately \$5 to 6 million in new rehabilitation and reconstruction projects. Approximately \$900,000 will be used for projects in the Inyo and Mono Counties. Staff also expects that at least two of the current "Environmental Only" projects currently in the 2000 STIP may be eligible for "PS & E" phasing prior to the 2004 RTIP cycle. Approximately \$3,500,000 would be required in RIP funding.

New projects include:

- I-5 at Laval Road – Construct Interchange (Environmental Only)
- SR 14 – Freeman Gulch Project (Environmental Phase Only)
- SR 395 – In Kern County (Environmental Phase Only – Partnership funding)
- SR 395 – In San Bernardino County (Environmental Phase Only – Partnership funding)
- Transportation Control Measure Program
- Planning, Programming and Monitoring
- Rehabilitation and Reconstruction

Revised from 2000 STIP:

- SR 46 – From County Line to I-5 – (Environmental and R/W)
- SR 46 – Near Wasco – (Environmental)
- Westside Parkway (Kern River Freeway Alignment) - (Construction phase)
- SR 178 – New Interchange at Fairfax Road – (Construction phase)

Summary of New Programming for the Kern COG 2002 Regional Transportation Improvement Program

Agency	Project Description	Phase	Year	RIP	Other RIP	IIP	Total	RIP
2002 County Share Estimate for Kern County								\$90,111
Various	STIP Planning, Programming and Monitoring from 2003-04 to 2006-07	\$900						\$89,211
Caltrans	I-5 at Laval Road - Reconstruct Interchange (Environmental Only)	PA & ED	2002-03	\$1,500			\$1,500	\$87,711
Caltrans	SR 14 – PM 45.9 / 62.3 - Near the City of Ridgecrest - Redrock Inyokern Rd to Rte 178 -Convert two-lane conventional highway to four-lane expressway with controlled access (Environmental Only)	PA & ED		\$1,280	\$640	\$1,280	\$3,200	\$86,431
Caltrans	SR 46 – PM 7.3 / 33.5 -In Kern County, from Kecks Road to I-5 - Convert a two-lane conventional highway to a four-lane conventional expressway.	PA & ED	2002-03	\$975			\$975	\$66,631
		PS & E	2003-04	\$3,705		\$225	\$3,930	
		R/W SUP	2002-03	\$1,620			\$1,620	
		R/W	2002-03	\$13,500		\$21,500	\$35,000	
		Totals		\$19,800		\$21,725	\$41,525	
Caltrans	SR 46 - PM 46 / 51.2 - In Wasco from SR 43 North to Jumper Ave. - grade separation; widen to four lanes; signalization; intersection improvements	PA & ED	2002-03	\$410			\$410	\$66,221
Bakersfield	Westside Parkway - Construct Freeway from Stockdale Highway to Mohawk Road.	CON	2004-05	\$43,001			\$43,001	\$23,220
		Totals		\$43,001			\$43,001	
Caltrans	SR 99 - In Bakersfield at the White Lane intersection, construct soundwall.	CON	2002-03	\$750			\$750	\$22,470
Caltrans	SR 119 - PM 5.8/13.2 - Near Taft from Cherry Ave. to Tupman Rd. widen to four lane expressway.	PA & ED	2002-03	\$1,000			\$1,000	\$21,470
Caltrans	SR 178 - PM 6.1 / 7.5 - In Bakersfield at Fairfax Avenue - widen to four lanes and build intersection	CON SUP	2002-03	\$5,300			\$5,300	\$15,670
		CON	2002-03	\$500			\$500	
		Totals		\$5,800			\$5,800	
Caltrans	SR 395 – PM 14.8 / 23.0 - Near Ridgecrest, from China Lake Blvd to Rte 178 - Convert two-lane conventional highway to four-lane expressway (Environmental Only)	PA & ED	2002-03	\$1,280	\$640	\$1,280	\$3,200	\$14,390
Caltrans	SR 395 – PM 4.0 / 48.0 - Develop the US 395 corridor from I-15 to SR 58 - Project Approval and Environmental Document (PA & ED)	PA & ED		\$2,000	\$8,000	\$4,000	\$14,000	\$12,390
Ridgecrest	On West Ridgecrest Blvd. (In Ridgecrest) Mahan Street to China Lake Blvd. Rehabilitate and widen road to four lanes.	PA & ED	2002-03	\$1,000			\$1,000	\$11,390
Kern County	North of Bakersfield on 7th Standard Road from SR 99 to Meadow Fields Airport - widen 7th Standard Road from two to four lanes at various locations	PS & E	2002-03	\$150				\$8,740
		CON	2003-04	\$2,500				
		Totals		\$2,650			\$2,650	
KCOG	Transportation Control Measure for Kern County	PE	2003-04	\$750			\$750	\$7,990
Various	Rehabilitation Projects at various locations	CON	2003-04	\$7,990			\$7,990	\$0

PROJECT PROFILE – Planning, Programming and Monitoring

Project Overview: The Planning, Programming and Monitoring element of the 2002 RTIP was formulated using the new 5% allowed by recent legislation. These funds will be used for staff time and for consultant services for transportation studies. The new funding is also advanced to allow time to deliver the studies. The funding will be broken out over three years, from 2002/03 through 2004/05.

COMMENTS:

PROJECT PROFILE - “Laval Road Interchange”

Description: On Interstate 5 at Laval Road.

Work Description: Construct new interchange at Laval Road

Project Overview: I-5 at Laval Road Interchange - This project consists of reconfiguring the interchange of Laval Road with Interstate 5. There are several capacity and safety problems associated with the existing interchange configuration. First, the interchange crosses I-5 at a skew, which causes operational problems with ramp merging. Secondly, because of the existing configuration with respect to the local road network, two offramps from I-5 for both the north and south directions are required. This leads to confusion of the traveling public. Finally, growth in the area has created a need for additional lanes crossing I-5. Another structure parallel to the existing structure can be constructed to accommodate this growth, however the existing structure requires extensive seismic rehabilitation. A new structure that perpendicularly crosses I-5 will alleviate the problems associated with the existing interchange. This new facility will be wide enough to accommodate future growth in the area and constructed to the latest seismic standards.

This project will use 2002 RIP funds for the PA & ED phase only. Future funding will likely be a combination of local, RIP and IIP funding. This project is a new project for the STIP.

COMMENTS:

PROJECT PROFILE: “Freeman Gulch Widening”

Project Location: On Route 14 in Kern County from 1.3 km north of Redrock Inyokern Road to 2.7 km north of the junction of State Route 178 east.

Project Description: Convert two-lane conventional highway to four-lane expressway with controlled access.

Project Overview: Caltrans Districts 6 and 9 initiated this project. The 2002 RTIP request will fund the Project Approval and Environmental Document phase of this project. Environmental Review is expected to be completed by 2010. It is proposed to improve the capacity, safety and operation of a portion of Route 14 in Kern County by converting the existing two-lane conventional highway into a four-lane divided controlled access expressway. The Route 14/395 Corridor provides the only major north/south route in California east of the Sierra Nevada Mountains. Route 14 connects Southern California to the Eastern Sierra Region of California and Western Nevada.

The Purpose and Need for this project is two-fold. The addition of lanes and the conversion of this route to an expressway are needed to improve the safety and operation of this segment of Route 14. It is also needed to achieve the Route concept goal of a Level of Service B by reducing congestion.

Following the completion of this project, Route 14 will be a continuous four-lane facility along its entire length from its beginning at Interstate 5 in Los Angeles County to Route 395 in Kern County.

Funding for the PA & ED phase of this project reflects a partnership between Caltrans and the RTPA's of Kern, Inyo and Mono, in order to leverage the investment of IIP funds with RIP funds. In order to facilitate this funding partnership, a Memorandum of Understanding for this project was recently signed by Caltrans, Kern, Inyo and Mono Counties to share costs at 40%, 40%, 10%, and 10% , respectively.

Project Title:		Freeman Gulch Widening						
* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.								
Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))								

Near the City of Ridgecrest – Redrock Inyokern Road to Route 178

Description and Scope of Work - (brief)

Convert two-lane conventional highway to four-lane expressway with controlled access.

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

The project improves safety and connectivity between the City of Ridgecrest, Route 58, and recreational travel further north. It implements the route strategy of the Caltrans District 6 Transportation Concept Report, Interregional Transportation Strategic Plan and the Kern County Regional Transportation Plan.

R/W											09/10	8,020
CON											10/11	70,020
TOTAL												84,600
												87,800

* NOTE: R/W SUP and CON SUP used only for Caltrans projects - see Section 41 of STIP Guidelines. Funding decreases displayed within "()". Fiscal Year (FY) shown in yy/yy format.

**** Expected Source(s) of Additional Funding Necessary to Complete Project - as Identified Under 'Additional Need' - (brief)**

ITIP and STIIP funds from future STIP cycles are anticipated to complete project.

Special Funding Conditions or Terms (If any, including State-Only funding designation and explanation) - (brief)

Project represents a partnership between Caltrans, RTPAs of Kern, Mono and Inyo Counties sharing a 40%, 40%, 10%, and 10% split, respectively.

FTA Grant Type: * FTA App. Date: * FTA 'Grantee': *

* NOTE: FTA Grant Type, FTA Application Date and FTA Grantee are applicable only for transit projects to be funded in part from a FTA grant - Refer to Section 26 of the CTC Guidelines.

PROJECT PROFILE: “Keck’s Road 4-Lane”

Project Location: On State Route 46 from the intersection of Keck’s Road and State Route 46 to 0.2 km east of the Interstate 5 interchange.

Project Description: Convert two-lane conventional highway to four-lane expressway with controlled access.

Project Overview: The purpose of this project is to rehabilitate the existing pavement, to improve traffic operations, and to improve traffic safety. The fatality accident rate for this roadway is higher than the state average. The Project Study Report for this project, approved March 7, 2000, cites Alternative 1 as the Preferred Alternative. The Study indicated a Level of Service D if no improvements are made to this segment. The Preferred Alternative recommends a four-lane conventional highway with a 3.6 m median. These improvements will improve the safety of this segment by separating opposing traveled ways with a standard width median. Safety will be further improved by upgrading the geometrics for a majority of the project to a design speed of 110 km/h.

This project was introduced in the 2000 STIP for the PA & ED phase. Proposed funding for the 2002 STIP cycle will provide additional funding for PA & ED, PS & E, R/W, and R/W Support.

STATE TRANSPORTATION IMPROVEMENT PROGRAM

Project Nomination Fact Sheet (Page A-1)

Reformatted - 11/05/1999

(All Dollars in Thousands and Escalated)

Project Title:	Kecks Road 4-Lane							
* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.								
Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))								

In Kern County, from Kecks Road to I-5.

Description and Scope of Work - (brief)

Convert a two-lane conventional highway to a four-lane conventional expressway.

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

The project, which is a main link from the San Joaquin Valley to the Central Coast, will reduce congestion and improve safety, particularly in relation to truck and recreational traffic. The project ties together a series of improvements in both Kern and San Luis Obispo Counties with an emphasis of improving the highway to four lanes from Route 101 to Interstate 5. The project is consistent with the Caltrans Route Concept, the Interregional Transportation Strategic Plan, and the Kern and San Luis Obispo County Regional Transportation Plans. The project is of top priority for both regional transportation planning agencies.

COMMENTS:

PROJECT PROFILE: "Wasco 4-Lane"

Project Location: On State Route 46 near Wasco from 1.6 km west of Schofield Ave. to State Route 43.

Project Description: Convert two-lane conventional highway to four-lane expressway.

Project Overview: The purpose of this project is to rehabilitate the existing pavement, to improve traffic operations, and to improve traffic safety. Caltrans initiated this project at the request of the City of Wasco and Kern Council of Governments. The community of Wasco has expressed concerns over capacity and safety on this State Highway. These concerns arise from the existing narrow two to three-lane roadway on State Route 46, the unsignalized at grade intersections, the high percentage of truck traffic and the number of accidents.

Anticipated local growth in Wasco is expected to impact the operation of State Route 46. Due to the expected growth in and around Wasco, City and County Planners anticipate that the traffic demand on State Route 46 will cause the Level of Service to deteriorate to a LOS E in the 20-year design period. This deterioration in LOS could cause increased delay and may cause drivers to make unsafe movements in their attempts to enter or exit State Route 46.

This project was introduced in the 1998 STIP for the PA & ED phase. Proposed funding for the 2002 STIP cycle will provide additional funding of \$410,000 for the PA & ED work. This was requested by Caltrans District 6 engineering.

COMMENTS:

PROJECT PROFILE: “Westside Parkway – (State Route 58 Kern River Freeway)”

Project Location: In Bakersfield from Stockdale Highway west of Heath Avenue to Mohawk Drive.

Project Description: Construct new 4, 6 and 8-Lane freeway facility on 8-Lane Right-of-Way.

Project Overview: This project will require the addition of \$43,001,000 to the construction phase. Programming for this project started in the 1994 STIP cycle and since then was grandfathered into the 1998 STIP. The 1998 STIP added the construction to fund the first phase of the new alignment. The 2000 STIP moved the project forward without any new funding for this project. A \$30,000,000 IIP investment is anticipated to be removed due to a potential change in the status of the alignment as a state facility. In anticipation of this change, the programming has been adjusted with new 2002 County Share RIP funds.

The alignment is identified as a key component in a recent transportation study, (the Bakersfield System Study) that identified a preferred alternative in resolving alignments for the metropolitan Bakersfield area in terms of connectivity to existing and proposed facilities, including State Routes 58, 178, 204 and major arterials in downtown Bakersfield. Interregional traffic and existing congestion are among the many issues that have been reviewed in the study. The study will conclude with two Project Study Reports by early Spring 2002.

Funding documentation that follows will cite the existing 2002 STIP project, EA No. 06-40010K. Revisions will be made to that project to account for the new RIP investment. When appropriate, (upon conclusion of the Tier I Environmental Impact Study for this corridor) an amendment may be requested to modify the description of this project.

Kern	6	3455	40010	KER960102	U	58	PM: T31.6 KP: T66.2	PM: R50.4 KP: R81.1
Legislative Districts:	Senate: Jim Costa 16 th District Charles Poochigan 14 th District Assembly: Dean Florez 30 th District					Congressional: Calvin Dooley 20 th District Bill Thomas 21 st District		
Project Sponsor:	Caltrans District 6							
Implementing Agency:	Caltrans District 6							
Project Title:	Bakersfield Freeway – Tier 2							

* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.

Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))

In Bakersfield, from Stockdate Highway to Mohawk Road

Description and Scope of Work - (brief)

Construct 4 and 6-Lane new facility on 8-Lane of Right-of-Way

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

Mitigate local trip congestion in the metropolitan Bakersfield area and improve interregional movement of traffic in the State Route 58 corridor.

Total Project Component Costs (dollars in thousands and escalated)													
Component	Prior and Existing Funding				Change in Funding						Additional Need**		Total

COMMENTS:

PROJECT PROFILE - "White Lane Soundwall"

Description: State Route 99 at White Lane – northbound exit ramp in the southeast quadrant of the interchange.

Work Description: Construct new sound wall.

Project Overview: A 4.3 meter high sound wall has been studied for implementation along the northbound exit ramp adjacent to the Smoke Tree Mobile Home Park. The sound wall is proposed to be constructed along the exit ramp edge of shoulder on a concrete barrier. The specific realignment geometry of the ramp may require that the sound wall be built on a barrier combined with a retaining wall at the new edge of shoulder or shifted to the right of way line along the Smoke Tree Mobile Home Park. The sound wall will be constructed concurrently with the interchange improvement project.

This project is a required mitigation of two other concurrent projects: a bridge widening on White Lane over the SR 99 and interchange ramp work. The sound wall was identified as a required mitigation of the ramp work. This will be a new project in the STIP.

Project Sponsor:								
Implementing Agency:								
Project Title:		White Lane Sound Wall						

* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.

Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))

In Bakersfield on State Route 99 at White Lane.

Description and Scope of Work - (brief)

Construct new Sound wall.

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

The sound wall is required noise mitigation for Mobile Home Park located adjacent to the freeway offramp.

PROJECT PROFILE - "Cherry Avenue 4-Lane"

Project Location: East of of the City of Taft on State Route 119 from Cherry Avenue to Tupman Road.

Project Description: Convert two-lane conventional highway to four-lane expressway.

Project Overview: State Route 119 is gaining increased importance for commuter traffic between Bakersfield and Taft as well as the oil fields in the vicinity. State Route 119 is currently operating at a Level of Service (LOS) of E within the project limits. If no improvements are made to this segment it will reach a LOS of F by the year 2010. Caltrans District 6 wrote a Route Concept Report (RCR) in cooperation with Kern Council of Governments November 1989, for the modification of Route 119. The report recommended widening the existing two-lane highway into a four-lane expressway. This would result in a LOS of B within the project limits, which would exceed the concept LOS of C.

The PA & ED phase of this project was originally programmed into the 1998 STIP. It is scheduled for completion September 2004. The 2002 RTIP cycle proposes to add an additional \$1,000,000 to fund the cost of the environmental review. Caltrans District 6 requested this increase.

Project Nomination Fact Sheet (Page A-1)

Reformatted - 11/05/1999

(All Dollars in Thousands and Escalated)

Project Information						Fact Sheet Date:		
County	Caltrans District	PPNO *	EA *	Region/MPO/TIP ID*	Rural (R) / Urbanized(U)	Route/Corridor *	PM / KP Back *	PM / KP Ahead *
Kern	6	3645	42470	KER990102	R	119	PM: 5.8 KP: 9.4	PM: 13.2 KP: 21.02
Legislative Districts:		Senate: Jim Costa 16 th District Assembly: Dean Florez 30 th District				Congressional: Calvin Dooley 20 th District		
Project Sponsor:		City of Taft / Kern Council of Governments						
Implementing Agency:		Caltrans District 6						
Project Title:		Cherry Avenue 4-Lane						

* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.

Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))

Near Taft from Cherry Avenue to Tupman Road

Description and Scope of Work - (brief)

Widen from 2-Lane conventional highway to 4-Lane Expressway

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

State Route 119 is currently operating at a Level of Service E within the project limits. The proposed improvements will result in a LOS B.

COMMENTS:

PROJECT PROFILE - "Fairfax Interchange"

Description: On State Route 178 between 1.2 km west and 1.2 km east of Fairfax Road in the City of Bakersfield.

Project Description: Construct new interchange at State Route 178 and Fairfax Road and widen SR 178 to a four-lane freeway.

Project Overview: Higher than average accident rates and a declining Level of Service (LOS) on the existing two lane expressway together with a Current LOS E at the Fairfax Road intersection emphasize the need for the proposed project.

This project was originally introduced into the 1998 STIP and requires additional funding for Caltrans construction engineering phase and the construction phase.

COMMENTS:

PROJECT PROFILE – “Inyokern 4-Lane”

Description: On State Route 395 from 0.4km south of China Lake Road to 0.3 km south of State Route 178.

Work Description: Convert a portion of the existing two-lane, conventional highway on State Route 395 in Kern County to a four-lane, divided expressway.

Project Overview: This proposed project would increase traffic capacity, improve traffic flow, reduce traffic congestion, and will improve safety for the traveling public.

The current funding request will facilitate the Project Approval/Environmental (PA&ED) Phase only. The project is also part of a funding partnership between Caltrans, the RTPA's of Inyo and Mono Counties, and Kern.

STIP
STATE TRANSPORTATION IMPROVEMENT PROGRAM

Project Nomination Fact Sheet (Page A-1)

Reformatted - 11/05/1999

(All Dollars in Thousands and Escalated)

Project Information							Fact Sheet Date: 08/13/01	
County	Caltrans District	PPNO *	EA *	Region/MPO/TIP ID*	Rural (R) / Urbanized(U)	Route/Corridor *	PM / KP Back *	PM / KP Ahead *
Kern	6	8539	44310K	Kern COG	R	395	PM: 14.8 KP: 23.7	PM: 23.0 KP: 36.8
Legislative Districts:	Senate: William J. Knight District # 17 Assembly: Phil Wyman District #34					Congressional: Bill Thomas District # 21		
Project Sponsor:	Caltrans District 6							
Implementing Agency:	Caltrans District 6							
Project Title:	Inyokern 4-Lane							
* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.								
Location and Project Limits -								

Near Ridgecrest, from China Lake Blvd to Rte 178.

Description and Scope of Work -

Convert two-lane conventional highway to four-lane expressway.

Transportation Problem to be Addressed by Project and Description of Project Benefits -

The project improves the connectivity between the City of Ridgecrest and Route 58, as well as important recreational uses to the north. The project implements route strategy of the Interregional Transportation Strategic Plan and the Kern County Regional Transportation Plan.

Total Project Component Costs (dollars in thousands and escalated)													
Component	Prior and Existing Funding				Change in Funding						Additional Need**		Total

COMMENTS:

PROJECT PROFILE - "Widening of Route 395"

Description: On State Route 395 outside Kern County, from the Kern County Line to Los Angeles County Line, in the County of San Bernardino.

Work Description: Convert the two-Lane highway to four-lane highway.

Project Overview: ROUTE 395 FROM JCT 15 IN SAN BERNARDINO COUNTY TO JCT SR 14 IN KERN COUNTY

Existing Route 395 is overburdened and operating beyond its intended capacity. Based on 1998 Average Daily Traffic (ADT), this segment of Route 395 is operating at a Level of Service (LOS) "E" and "D". By 2020, the LOS in the urbanized areas is expected to degrade to "F".

Route 395 is currently a two-lane interregional north-south highway that traverses 69.8 miles through San Bernardino County and 29.7 miles through Kern County. It is a high emphasis, focus, and gateway route.

Route 395 is a major goods movement route that connects I 15, SR 58, and SR 14. There are other modal transportation systems along this route, including rail and air transportation. Route 395 serves two military facilities, China Lake Weapons Center and Edwards Air Force Base. The route is a lifeline to rural desert communities and the Eastern Sierra Nevada Region whose economy is largely dependent on recreational activities. This area of California is expected to have to increase its populations by more than fifty per cent by the year 2020. Upgrading this corridor to a freeway/expressway facility is a priority in Caltrans Districts 6, 8, and 9.

PROPOSED SOLUTION(S) OR RANGE OF ALTERNATIVES: Four highway alternative alignments have been evaluated. Each suggests a six-lane freeway from I 15 to SR 18, a four-lane freeway from SR 18 to Purple Sage Road, and a four-lane expressway along the existing alignment of SR 395 from Purple Sage Road to SR 14. The upgrade to a minimum expressway/freeway standards will take several years to complete and preservation of right of way is of extreme importance for the ultimate facility.

This project requires a funding partnership requested by Caltrans. The Kern Council of Governments approved \$2,000,000 of RIP to help fund the PA & ED phase of this project. There is no agreement to committee future funding to future phases of this project.

Legislative Districts:		Senate: 34 Assembly: 17				Congressional: 40		
Project Sponsor:		Caltrans						
Implementing Agency:		Caltrans						
Project Title:		Widening of Route 395						

* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.

Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))

Junction I-15/US-395 to 0.5 mile south of Farmington Rd

Description and Scope of Work - (brief)

Construct 6-lane Freeway from I-15 to State Route 18 (Phase 1); 4-lane Freeway from State Route 18 to Purple Sage St (Phase 2) & 4-lane Expressway from Purple Sage Street to Farmington Rd (Phase 3).

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

Relieve current and future congestion and delay, improve safety and goods movement.

COMMENTS:

PROJECT PROFILE - "West Ridgecrest Blvd. Widening"

Description: In the City of Ridgecrest on West Ridgecrest Blvd. from Mahan Street to China Lake Blvd. The segment length is 1.5 miles.

Work Description: Reconstruct and widen to four-lanes.

Project Overview: The proposed widening and reconstruction project on West Ridgecrest Blvd. are needed to reduce congestion, improve travel time and provide a facility that will accommodate projected traffic volumes for the next twenty years. Deficiencies have been identified on this segment including accident rates that are higher than the state average and a 20-year no build projection of Level of Service (LOS) D through F for various intersections along the 1.5 mile segment. Proposed safety and capacity improvements will bring this road segment to a LOS C.

This request for RIP will fund the PA & ED phase only for this project. This is a new project.

COMMENTS:

PROJECT PROFILE – “7th Standard Road widening – SR 99 to Wings Way”

Description: In Bakersfield on 7th Standard Road from State Route 99 to Wings Way.

Project Description: Widen road from two to four lanes.

Project Overview: This project consists of widening 7th Standard Road to a four-lane arterial between S.R. 99 and Wings Way, a distance of approximately 2.0 miles. 7th Standard Road is designated an arterial in the Metropolitan Bakersfield 2010 General Plan. It is the primary access road for the new Meadows Field Air Terminal. This project includes construction of traffic signals at the intersections of 7th Standard Road and Industry Parkway Drive, Pegasus Way and Wings Way. The existing traffic signal at the intersection of 7th Standard Road and S.R. 65 will be modified as a part of this project.

This is a new project. RIP funding will be used for the preliminary engineering and construction phase of this project.

COMMENTS:

PROJECT PROFILE - "Transportation Control Measure"

Project Overview: Air Quality Public Outreach Campaign - Promote incentives for, and subsidize, the use of alternative fuels in fleets; incentives for alternative fuel HDVs; alternative work schedules; telecommunications-telecommuting; incentives to increase density around transit centers; transportation for livable communities (TLC)/housing incentive program; voluntary no drive day programs; areawide public awareness programs; mandatory compressed work weeks; employer rideshare program incentives; deferred emissions associated with governmental activities; preferential parking for carpools and vanpools; voluntary business closures on ozone action days; purchasing vans for vanpools; intelligent transportation systems; encourage limitations on vehicle idling; bicycle travel; pedestrian travel; use scout troops, churches, public figures to carry message of air pollution problems; mass transit alternatives planning.

This project is new to the STIP and will be funded for a total of \$750,000 for incentives, outreach and capital subsidies between 2002/03 and 2004/05. A total of \$300,000 will be used for planning/outreach activity. The balance of \$450,000 will be used for a capital program to leverage other partnership dollars for projects with air quality benefits.

* NOTE: PPNO & EA assigned by Caltrans. Region/MPO/TIP ID assigned by RTPA/MPO. Route/Corridor & PM/KP Back/Ahead used for State Highway System and Intercity Rail projects.									
Location and Project Limits - (brief) (State/Region and Area Specific Maps to be included on Page 2 (Sheet A-2))									

County Wide with special emphasis on San Joaquin portion of Kern County due to air quality status.

Description and Scope of Work - (brief)

Public Outreach Program and some capital

Transportation Problem to be Addressed by Project and Description of Project Benefits - (brief)

This project will provide public outreach to use available transportation more efficiently because of poor air quality.

Total Project Component Costs (dollars in thousands and escalated)													
Component	Prior and Existing Funding				Change in Funding						Additional Need**		Total
	STIP		Other		RTIP		ITIP		Other		Additional		Prior&Existing + Change + Additional
	FY yy/yy	\$ Amount	FY yy/yy	\$ Amount	FY yy/yy	\$ Amount	FY yy/yy	\$ Amount	FY yy/yy	\$ Amount	FY yy/yy	\$ Amount	
E&P/PA&ED					02/03	\$100							
					'03/04	\$100							
					04/05	\$100							
PS&E													
R/W SUP *													
CON SUP *													
R/W													
CON					02/03	\$150							
					'03/04	\$150							
					04/05	\$150							
TOTAL						\$750							\$750

* NOTE: R/W SUP and CON SUP used only for Caltrans projects - see Section 41 of STIP Guidelines. Funding decreases displayed within "()". Fiscal Year (FY) shown in yy/yy format.

**** Expected Source(s) of Additional Funding Necessary to Complete Project - as Identified Under 'Additional Need' - (brief)**

None

Special Funding Conditions or Terms (If any, including State-Only funding designation and explanation) - (brief)

None

FTA Grant Type: * FTA App. Date: * FTA 'Grantee': *

* NOTE: FTA Grant Type, FTA Application Date and FTA Grantee are applicable only for transit projects to be funded in part from a FTA grant - Refer to Section 26 of the CTC Guidelines.
