SUBJECT: Regional Planning Advisory Committee Agenda Item: IV.
REGIONAL GROWTH ALLOCATION

DESCRIPTION:

Draft distribution of the Kern Regional Growth Forecast at the transportation analysis zone (TAZ) level.

DISCUSSION:

Background

Growth Forecast – Kern COG adopted the 2024-2050 regional growth forecast at its April 18th Board meeting in 2024. The growth forecast is a long-range projection for countywide total population. The population total is used to develop housing, employment, school enrollment, and income forecasts. The forecast will serve as the growth assumption for the 2026 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS). The RPAC and Transportation Modeling Committee (TMC) are charged with overseeing changes to the growth forecast allocations at RSA subregion level and the transportation analysis zone (TAZ) level. The regional growth forecast included preliminary summaries for 13 RSA subregions. Kern COG utilizes a growth allocation model (Uplan) to distribute each subregions growth to the TAZ level.

Uplan Growth Model (land use model) – The Uplan model allocates growth based on latest land use and planning assumptions. This tool allows Kern COG to develop and present the public with scenarios as required for the development of Kern COG's SCS. Many input layers are used to represent latest planning assumptions in the land use model. Some of the key input layers are: the general plan layer (generalized land use layer), existing urban mask, and growth attractors (infrastructure, tentative tracts, etc.). Kern COG's latest land use model documentation is available under the "Additional Documents" section at: <https://www.kerncog.org/model-documentation/>

Growth Allocation

Kern COG has generated a draft distribution of the Kern Regional Growth Forecast at the transportation analysis zone level. This draft distribution represents a base for developing scenarios for the 2026 RTP. Kern COG has worked with its member agencies to update land use data and local infrastructure data for generating the base TAZ distribution. Kern COG will be refining the growth distribution over the next month. The data has been mapped for member agencies to provide feedback and comments, due April 16th. The interactive map of the draft TAZ growth distribution will be posted by Monday March 31st at: <https://www.kerncog.org/maps/>.

ACTION: Information. Member agency comments due April 16, 2025.

Attachment A provides a summary of the distribution by RSA subregion.

Attachment B is a map of the RSA Subregions.

SUBJECT: Regional Planning Advisory Committee Agenda Item: V.
UPDATE: SB 375 GREENHOUSE GAS EMISSION REDUCTION FROM
PASSENGER VEHICLES AND ADOPTION TIMELINE FOR THE 2026 RTP

DESCRIPTION:

The Regional Transportation Plan (RTP) is required to be updated every 4-years and contains a long range 24-year transportation expenditure portfolio fulfilling numerous policies and regulations including but not limited to public involvement, social equity, air quality conformity, congestion management, and Senate Bill (SB) 375 per capita greenhouse gas (GHG) reduction targets.

DISCUSSION:

This discussion provides an update on the activity related to the RTP and the SB 375 Sustainable Communities Strategy (SCS). The report is updated regularly with the most recent developments listed first.

January 2025 – Kern COG Annual Statistically Valid Community Survey was conducted in January. Survey results have been compiled and will be shared with the Kern COG board at the April Board Meeting.

September 18th – 29th, 2024 – Kern COG collected input for 2026 RTP/SCS and collected input on transportation issues in the community at the Kern COG booth during the Kern County Fair.

July 24th – August 2nd, 2024 – Kern COG hosted four community workshops collecting input on the KARGO Community Prosperity/Protection Study and Freight related projects for the RTP/SCS. Workshops were held in Greater Arvin area (at the Tejon Indian Tribe Community Center), Delano, Rosamond, and Tehachapi.

June 28, 2024 – Kern COG submitted to the California Air Resources Board (ARB) the Kern COG 2026 SCS Technical Methodology and responses to their draft comments on the 2022 SCS. ARB

staff responded that their final comments on the 2022 SCS are moving up their management reviews. As of July 22, the final comments have yet to be provided.

May 20, 2024 – Kern COG hosted an outreach roundtable as part of the Kern Area Regional Goods-movement Operations (KARGO) Study. The latest KARGO Study will feed into the 2026 RTP and host series of outreach events to collect input of the study in coordination with the 2026 RTP development. At the roundtable meeting attendees from community based organizations, and local/state agencies provided feedback on the outreach plan.

May 3, 2024 – Golden Empire Transit (GET) hosted a workshop on the Metro Bakersfield Moves – Long-Range Transit Plan (LRTP). The LRTP is a key input in the development of the 2026 RTP. During the outreach process for the LRTP, survey collected public input for both the LRTP and the RTP.

April 18, 2024 – The Kern COG Board adopted the 2024-2050 Regional Growth Forecast. The Regional Growth Forecast establishes population forecasts for the horizon of the 2026 RTP.

February 20, 2024 – ARB provided another email re-confirming that they officially accept Kern COG's 2022 SCS, and provided a draft of 11 recommendations for the 2026 SCS. No estimate on when their final acceptance letter will be submitted.

January 9, 2024 and November 2, 2023 – ARB provided an email updates on the status of Kern COG's promised 2022 RTP/SCS acceptance letter. A key upper management review person is not available this month pushing the issuance of the final letter into 2024, 7-months after ARB indicated acceptance of Kern COG's SCS in their June 13th email.

August 10, 2023 - ARB staff announced at the quarterly San Joaquin Valley Inter-Agency Consultation meeting that Kern, Stanislaus, and Tulare COGs have received their approval and will receive official documentation in September. Fresno and San Joaquin COGs have completed their reviews and are in the process of making some required board actions before they can receive their official approval. Kings, Madera, and Merced are still under review by ARB staff.

July 26, 2023 – 2026 RTP/SCS Roundtable Meeting was held for environmental, equity, business & industry groups on the public outreach process at Kern COG and included 14 representatives from the Delores Huerta Foundation, Central California Asthma Collaborative, Sierra Club, Home Builders Association, Golden Empire Transit, Caltrans, County Public Works, and staff from the cities of McFarland, Taft, and Wasco.

July 13, 2023 - ARB staff emailed Kern COG and the California, the final acceptance letter is still working its way through upper management reviews and may not be issued till September due to staffing and vacation issues.

June 15, 2023 – Kern COG Board approved the 2023 Public Involvement Procedures document after a 45-day public review. The document is online at <https://www.kerncog.org/policies/> .

June 13, 2023 – ARB staff emailed Kern COG and the California Transportation Commission that “the SCS is officially approved.” However, the final acceptance letter is still working its way through upper management reviews and will take several weeks before it is issued.

May 19, 2023 – ARB staff acknowledged receipt of the requested transmittal letter signed by the Kern COG Chair, and associated TPPC staff report. ARB staff indicated they would provide a status update by May 31, and try to meet Kern COG’s request for an expedited review by June 8, but that they could not commit to any date earlier than June 27.

May 5, 2023 - Kern COG submitted a draft of a Kern COG TPPC staff report and transmittal letter to ARB with a request for the Kern COG Chair to sign. The item was approved by the Board on May 18, 2023, and signed by the Chair. The letter documents technical changes that do not affect the adopted RTP/SCS text or conclusions. The document contains updates from the November 2022 SCS technical data submittal to ARB consistent with ARB guidelines.

May 1, 2023 – Kern COG circulated the draft Public Involvement Procedure for 45-day public review period to be concluded on June 15. In addition, the Kern COG Executive Director and other COG directors from the San Joaquin Valley met with the SJV representative on the California Air Resources Board. At that meeting ARB staff indicated that Kern was close to receiving the acceptance finding for their SCS.

April 26, 2023 – Kern COG submitted to ARB a cover letter and revised technical methodology data submittal with all the requested updates since the November data submittal. ARB requested that the Kern COG’s chair’s signature be approved by the Kern COG Board,

April 17, 2023 – Kern COG web conferenced with ARB staff for the 14th time in 3 years to discuss the 2022 SCS technical methodology. One final methodology issue remains out of 27 identified in CARB’s January 20th memorandum. Additional adjustments were made to the elasticity used to adjust the hybrid NCST tool method used by Fresno COG. Documentation of the adjustment was submitted to ARB on April 18, 2023. ARB is required to provide their findings and recommendations 2 months after the submitted package from Nov. 29, 2023, is found complete.

February 17, March 29, April 7, April 14, 2023 – Kern COG web conferenced with ARB to further refine SCS modeling methodology and in February provided draft comments on the 2022 SCS.

January 20, 2023 – ARB responded to Kern COGs SCS technical methodology submittal from November 29, 2022 with questions. A meeting was held on January 24, 2023, to clarify questions.

December 16, 2022 – The 2022 RTP/Federal Transportation Improvement Program (FTIP) short range transportation program air quality conformity was federally approved.

November 29, 2022 – Kern COG submitted the technical methodology data package to the ARB.

July 21, 2022 - the Kern COG Board adopted the 2022 RTP/SCS and associated documents. The documents are available on the Kern COG website at <https://www.kerncog.org/category/docs/rtp/>.

Table 1 – 2018 & 2022 SB 375 Targets for the Kern Region

Per Capita GHG Reduction Target/	2020	2035
2022 RTP/SCS demonstration (July 21, 2022) w/ required off-model adjustments (2020 is pre-COVID)	-10.9%	-15.1%

2018 RTP/SCS demonstration (August 15, 2018)	-12.5%	-12.7%
Targets for 2022 RTP/SCS (set March 22, 2018, by ARB, effective October 1, 2018)	- 9%	-15%

March 22, 2018 - ARB adopted new SB375 Targets for the third cycle RTP/SCS to be effective October 1, 2018. Next ARB target setting will be during the 2022-2026 window.

June 13, 2017 - ARB released proposed targets that were 2 percentage points higher than what Kern COG recommended for 2035. The related ARB documents are available online at <https://www.arb.ca.gov/cc/sb375/sb375.htm> . Kern COG's April target recommendation letter is located on page B-143 of the ARB staff report at https://www.arb.ca.gov/cc/sb375/appendix_b_mpo_scenario_and_data_submittals.pdf . Kern COG and the 8 San Joaquin Valley COG's prepared individual letters and a joint comment letter. The letters document methodological changes that make it difficult to compare the 2014 RTP results with the latest modeling refinements.
