TO: Interested Persons

FROM: JAY SCHLOSSER,  
EXECUTIVE DIRECTOR

By: Ceasar Valle  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2024 – 2025**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2024-2025 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2025,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org/category/docs/ftip/](http://www.kerncog.org/category/docs/ftip/) under “Federal Transportation Improvement Program.”

Should there be any questions, please contact Ceasar Valle at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2025. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation (Caltrans), and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

**Chairman:** Bob Smith  
**Vice Chairman:** David Couch  
**Secretary/ Interim Executive Director:** Jay Schlosser

**City of Arvin**  
Olivia Calderon

**City of California City**  
Marquette Hawkins

**City of Maricopa**  
Cory Morse

**City of Ridgecrest**  
John (Skip) Gorman

**City of Taft**

Ex-officio Members

**Military Joint Planning Policy Board**  
Malcolm Warney

**Caltrans District 6**  
Shane Gunn

**Golden Empire Transit District**  
Cindy Parra

**Caltrans District 9**  
Catherine Carr

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## The Federal Transportation Improvement Program

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## Public Involvement

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2025

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Project phases are: PE for preliminary engineering; RW for right of way; CON for construction (includes infrastructure and non-infrastructure). Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$214.7 million in federal funds were obligated for transportation projects in the region between October 1, 2024 and September 30, 2025.

The obligated federal funding consisted of approximately \$30.6 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 8 projects had bicycle/pedestrian components. \$13 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$2.2 million was transferred from FHWA to FTA for a transit project.

EXECUTIVE DIRECTOR

By: Ceasar Valle  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2023 – 2024**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2023-2024 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2024,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org/category/docs/ftip/](http://www.kerncog.org/category/docs/ftip/) under “Federal Transportation Improvement Program.”

Should there be any questions, please contact Ceasar Valle at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

# **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2024**

**Kern Council  
of Governments**

**December 2024**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2024. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation (Caltrans), and Military Joint Planning Policy Board are ex-officio members.

**Kern Council of Governments

**Caltrans District 9**  
Kirsten Helton

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## The Federal Transportation Improvement Program

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## Public Involvement

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2024

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Project phases are: PE for preliminary engineering; RW for right of way; CON for construction (includes infrastructure and non-infrastructure). Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$95.5 million in federal funds were obligated for transportation projects in the region between October 1, 2023 and September 30, 2024.

The obligated federal funding consisted of approximately \$28.7 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 14 projects had bicycle/pedestrian components. \$32.9 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$456 thousand was transferred from FHWA to FTA for a transit project.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2022 – 2023**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2022-2023 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2023,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org/category/docs/ftip/](http://www.kerncog.org/category/docs/ftip/) under “Federal Transportation Improvement Program.”

Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-635-2907

Fax: 661-324-8215

# **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2023**

**Kern Council  
of Governments**

**December 2023**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2023. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation (Caltrans), and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

**Chairman:** Bob Smith  
**Vice Chairman:** Zack Scrivner  
**Secretary/ Interim Executive Director:** Ahron Hakimi

**City of Arvin**  
Olivia Trujillo

**City of California City**  
Jim Creighton

**City of Maricopa**  
John Crump

**City of Ridgecrest**

Ex-officio Members

**Military Joint Planning Policy Board**  
Malcolm Warney

**Caltrans District 6**  
Michael Navarro

**Golden Empire Transit District**  
Cindy Parra

**Caltrans District 9**  
Kirsten Helton

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## The Federal Transportation Improvement Program

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## Public Involvement

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2023

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Project phases are: PE for preliminary engineering; RW for right of way; CON for construction (includes infrastructure and non-infrastructure). Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$78.5 million in federal funds were obligated for transportation projects in the region between October 1, 2022 and September 30, 2023.

The obligated federal funding consisted of approximately \$22.1 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 12 projects had bicycle/pedestrian components. \$10.1 million of Federal Transit Administration (FTA) funds were obligated for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2021 – 2022**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2021-2022 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2022,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org/category/docs/ftip/](http://www.kerncog.org/category/docs/ftip/) under “Federal Transportation Improvement Program.”

Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2022

**Kern Council  
of Governments**

**December 2022**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2022. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation (Caltrans), and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

**Chairman:** Bob Smith  
**Vice Chairman:** Zack Scrivner  
**Secretary/ Interim Executive Director:** Ahron Hakimi

**City of Arvin**  
Olivia Trujillo

**City of Bakersfield**

**Military Joint Planning Policy Board**  
Scott Kiernan

**Golden Empire Transit District**  
Cindy Parra

**Caltrans District 6**  
Michael Navarro

**Caltrans District 9**  
Kirsten Helton

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2022**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Project phases are: PE for preliminary engineering; RW for right of way; CON for construction (includes infrastructure and non-infrastructure). Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$94.1 million in federal funds were obligated for transportation projects in the region between October 1, 2021 and September 30, 2022.

The obligated federal funding consisted of approximately \$20.6 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 16 projects had bicycle/pedestrian components. \$10.8 million of Federal Transit Administration (FTA) funds were obligated for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2020 – 2021**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2020-2021 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2021,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org/category/docs/ftip/](http://www.kerncog.org/category/docs/ftip/) under “Federal Transportation Improvement Program.”

Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2021

**Kern Council  
of Governments**

**December 2021**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2021. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation (Caltrans), and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

Scott Kiernan

**Golden Empire Transit District**  
Cindy Parra

**Caltrans District 6**  
Michael Navarro

**Caltrans District 9**  
Dennee Alcala

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2021**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Project phases are: PE for preliminary engineering; RW for right of way; CON for construction (includes infrastructure and non-infrastructure). Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$171.6 million in federal funds were obligated for transportation projects in the region between October 1, 2020 and September 30, 2021.

The obligated federal funding consisted of approximately \$8.7 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 13 projects had bicycle/pedestrian components. \$2.3 million of Federal Transit Administration (FTA) funds were obligated for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2019 – 2020**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2019-2020 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2020,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-635-2907

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2020

**Kern Council  
of Governments**

**December 2020**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2020. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation (Caltrans), and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

**Chairman:** Bob Smith  
**Vice Chairman:** Zack Scrivner  
**Secretary/ Interim Executive Director:** Ahron Hakimi

**City of Arvin**  
Jose Gurrola Jr.

**City of California City**  
Nicholas Lessenevitch

**City of Maricopa**  
John Crump

**City of Ridgecrest**

**County of Kern**  
Zack Scrivner

Ex-officio Members

**Military Joint Planning Policy Board**  
Scott Kiernan

**Caltrans District 6**  
Michael Navarro

**Golden Empire Transit District**  
Cindy Parra

**Caltrans District 9**  
Dennee Alcala

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2020**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$83.3 million in federal funds were obligated for transportation projects in the region between October 1, 2019 and September 30, 2020.

The obligated federal funding consisted of approximately \$8.5 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 8 projects had bicycle/pedestrian components. \$31.5 million of Federal Transit Administration (FTA) funds were obligated for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2018 – 2019**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2018-2019 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2019,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2019

**Kern Council  
of Governments**

**December 2019**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2019. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

**Chairman:** Bob Smith  
**Vice Chairman:** Zack Scrivner  
**Secretary/ Interim Executive Director:** Ahron Hakimi

**City of Arvin**  
Jose Gurrola Jr.

**City of Bakersfield**  
Bob Smith

**City of California City**

**County of Kern**  
Zack Scrivner

Ex-officio Members

**Military Joint Planning Policy Board**  
Scott Kiernan

**Golden Empire Transit District**  
Cindy Parra

**Caltrans**  
Gail Miller

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2019**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$218 million in federal funds were obligated for transportation projects in the region between October 1, 2018 and September 30, 2019.

The obligated federal funding consisted of approximately \$3.8 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; 14 projects had bicycle/pedestrian components. \$15 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$280 thousand was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2017 – 2018**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2017-2018 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2018,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-635-2907

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2018

**Kern Council  
of Governments**

**December 2018**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2018. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

Gail Miller

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2018**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$145 million in federal funds were obligated for transportation projects in the region between October 1, 2017 and September 30, 2018.

The obligated federal funding consisted of approximately \$5.9 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; nine projects had bicycle/pedestrian components. \$8.7 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$603 thousand was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2016 – 2017**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2016-2017 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2017,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2017

**Kern Council  
of Governments**

**December 2017**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

Federal law, Title 23 CFR §450.334, requires that Kern Council of Governments publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects.

“(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2017. Obligation refers to the federal government’s commitment to pay or reimburse the lead agency for the federal share of a project’s cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area’s 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG’s member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

## **Kern Council of Governments Board of Directors**

**Chairman:** Cherylee Wegman  
**Vice Chairman:** Bob Smith  
**Secretary/ Interim Executive Director:** Ahron Hakimi

**City of Arvin**

Zack Scrivner

Ex-officio Members

**Military Joint Planning Policy Board**  
Scott Kiernan

**Golden Empire Transit District**  
Cindy Parra

**Caltrans**  
Gail Miller

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2017**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report includes funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$146.2 million in federal funds were obligated for transportation projects in the region between October 1, 2016 and September 30, 2017.

The obligated federal funding consisted of approximately \$10.4 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; fourteen projects had bicycle/pedestrian components. \$1.1 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$1.3 million was transferred from FHWA to FTA for transit projects.

FROM: AHRON HAKIMI,  
EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2015 – 2016**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2015-2016 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2016,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-635-2900

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2016

**Kern Council  
of Governments**

**December 2016**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.635.2900**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2012, Moving Ahead for Progress in the 21<sup>st</sup> Century Act (MAP-21) continues the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From MAP-21, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(5)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(5)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2016. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

Cindy Parra

**Caltrans**  
Gail Miller

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2016**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$92.8 million in federal funds were obligated for transportation projects in the region between October 1, 2015 and September 30, 2016.

The obligated federal funding consisted of approximately \$20.4 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; twenty one projects had bicycle/pedestrian components. \$22.3 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$2.5 million was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2014 – 2015**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2014-2015 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2015,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2015

**Kern Council  
of Governments**

**December 2015**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2012, Moving Ahead for Progress in the 21<sup>st</sup> Century Act (MAP-21) continues the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From MAP-21, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(5)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(5)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2015. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

Cindy Parra

**Caltrans**  
Gail Miller

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2015**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$128.3 million in federal funds were obligated for transportation projects in the region between October 1, 2014 and September 30, 2015.

The obligated federal funding consisted of approximately \$3.5 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; fifteen projects had bicycle/pedestrian components. \$10.9 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$1.9 million was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner

**SUBJECT: Federal Funds Obligated During 2013 – 2014**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2013-2014 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2014,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2014

**Kern Council  
of Governments**

**December 2014**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2012, Moving Ahead for Progress in the 21<sup>st</sup> Century Act (MAP-21) continues the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From MAP-21, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(5)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(5)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2014. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors, Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

Gail Miller

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2014**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$378.2 million in federal funds were obligated for transportation projects in the region between October 1, 2013 and September 30, 2014.

The obligated federal funding consisted of approximately \$3.7 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; fifteen projects had bicycle/pedestrian components. \$6 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$2 million was transferred from FHWA to FTA for transit projects.

Regional Planner III

**SUBJECT: Federal Funds Obligated During 2012 – 2013**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2012-2013 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2013,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2013

**Kern Council  
of Governments**

**December 2013**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2012, Moving Ahead for Progress in the 21<sup>st</sup> Century Act (MAP-21) continues the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From MAP-21, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(5)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(5)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2013. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors, Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2013**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$156.4 million in federal funds were obligated for transportation projects in the region between October 1, 2012 and September 30, 2013.

The obligated federal funding consisted of approximately \$2.1 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; nine projects had bicycle/pedestrian components. No Federal Transit Administration (FTA) funds were obligated for transit projects and \$2.5 million was transferred from FHWA to FTA for transit projects.

Regional Planner III

**SUBJECT: Federal Funds Obligated During 2011 – 2012**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2011-2012 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2012,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2012

**Kern Council  
of Governments**

**December 2012**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2012. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

**Golden Empire Transit**  
Howard Silver

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2012**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$126.8 million in federal funds were obligated for transportation projects in the region between October 1, 2011 and September 30, 2012.

The obligated federal funding consisted of approximately \$2.2 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; fifteen projects had bicycle/pedestrian components. No Federal Transit Administration (FTA) funds were obligated for transit projects and \$1.4 million was transferred from FHWA to FTA for transit projects.

Regional Planner III

**SUBJECT: Federal Funds Obligated During 2010 – 2011**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2010-2011 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2011,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2011

**Kern Council  
of Governments**

**December 2011**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2011. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2011**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$66 million in federal funds were obligated for transportation projects in the region between October 1, 2010 and September 30, 2011.

The obligated federal funding consisted of approximately \$124,577 of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; three projects had bicycle/pedestrian components. No Federal Transit Administration (FTA) funds were obligated for transit projects and \$4.16 million was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner III

**SUBJECT: Federal Funds Obligated During 2009 – 2010**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2009-2010 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2010,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2010

**Kern Council  
of Governments**

**December 2010**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2010. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2010**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$142 million in federal funds were obligated for transportation projects in the region between October 1, 2009 and September 30, 2010.

The obligated federal funding consisted of approximately \$2.3 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; nine projects had bicycle/pedestrian components. No Federal Transit Administration (FTA) funds were obligated for transit projects and none was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner III

**SUBJECT: Federal Funds Obligated During 2008 – 2009**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2008-2009 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2009,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2009

**Kern Council  
of Governments**

**December 2009**

**1401 19<sup>th</sup> Street, Suite 300**

**Bakersfield, CA 93301**

**Phone: 661.861.2191**

**Fax: 661.324.8215**

**Website: [www.kerncog.org](http://www.kerncog.org)**

## **Purpose**

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2009. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2009**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$93 million in federal funds were obligated for transportation projects in the region between October 1, 2008 and September 30, 2009.

The obligated federal funding consisted of approximately \$2 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; five projects had bicycle/pedestrian components. \$8.1 million of Federal Transit Administration (FTA) funds were obligated for transit projects and none was transferred from FHWA to FTA for transit projects.

Regional Planner III

**SUBJECT: Federal Funds Obligated During 2007 – 2008**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2007-2008 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2008,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2008

**Kern Council  
of Governments**

**December 2008**

1401 19<sup>th</sup> Street  
Bakersfield, CA 93301  
Phone: 661.861.2191  
Fax: 661.324.8215  
Website: [www.kerncog.org](http://www.kerncog.org)

## **Purpose**

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2008. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

**Caltrans**  
Sharri Bender-Ehlert

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2008**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$155 million in federal funds were obligated for transportation projects in the region between October 1, 2007 and September 30, 2008.

The obligated federal funding consisted of approximately \$1.5 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; eight projects had bicycle/pedestrian components. \$4 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$4 million was transferred from FHWA to FTA for transit projects.

EXECUTIVE DIRECTOR

By: Raquel Pacheco  
Regional Planner III

**SUBJECT: Federal Funds Obligated During 2006 – 2007**

The Kern Council of Governments, as the Metropolitan Planning Organization and the Regional Transportation Planning Agency for the Kern County region, is required to make available an obligational authority report for the 2006-2007 Federal fiscal year. This report titled, “Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2007,” contains a listing of projects within the Kern County region that have received an obligation of funds by Federal Highways Administration (FHWA) and Federal Transit Administration (FTA).

The public may review this document at the Kern Council of Governments and also on the web at [www.kerncog.org](http://www.kerncog.org) under “Federal Transportation Improvement Program.” Should there be any questions, please contact Raquel Pacheco at:

Address: Kern Council of Governments, 1401 19<sup>th</sup> Street, Suite 300, Bakersfield, California 93301

Phone: 661-861-2191

Fax: 661-324-8215

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2007

**Kern Council  
of Governments**

**December 2007**

1401 19<sup>th</sup> Street  
Bakersfield, CA 93301  
Phone: 661.861.2191  
Fax: 661.324.8215  
Website: [www.kerncog.org](http://www.kerncog.org)

## **Purpose**

The transportation bill passed in 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) outlines the requirement for Metropolitan Planning Organizations (MPO) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B):

An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).

This report is published in response to the above requirement by listing all federally funded transportation projects in the Kern County region that were obligated during federal fiscal year 2007. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program and Regional Transportation Plan.

## **Background**

The Kern Council of Governments (Kern COG) is the regional planning agency as well as the technical and informational resource, and rideshare administrator for the area's 11 incorporated cities and the County of Kern. Following Board direction, staff coordinates between local, state, and federal agencies to avoid overlap or duplication of programs. Kern COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process and supplies technical services to its member governments. In all these areas Kern COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

## **Who are the members, their representatives, and how do they vote?**

The Board of Directors is a governing body that addresses multi-jurisdictional planning concerns, funding priorities, as well as federal, state, and local comprehensive planning requirements. The Transportation Planning Policy Committee, staff from their agencies that comprise the Transportation Technical Advisory Committee, and citizen and interest groups assist the Board in making decisions.

Kern COG's member agencies are represented by a member of the city council of each of the eleven incorporated cities and two members of the Kern County Board of

Supervisors. Golden Empire Transit District, California State Department of Transportation, and Military Joint Planning Policy Board are ex-officio members.

Sharri Bender-Ehlert

## **The Regional Transportation Plan**

The Regional Transportation Plan (RTP) is a long-range (minimum 20-year) plan that provides a blueprint for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Kern COG meets these requirements by developing comprehensive transportation plans that include all surface transportation modes (multi-modal planning), to ensure efficient people and goods movement throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced and multimodal transportation system.

## **The Federal Transportation Improvement Program**

As the designated metropolitan planning organization for the region, Kern COG prepares and maintains the Federal Transportation Improvement Program (FTIP). The program includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Kern COG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

## **Public Involvement**

Kern COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that metropolitan transportation organizations provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the transportation improvement program, regional transportation plan, and other products.

## **Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2007**

Federal law requires Kern COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency*, *FTIP Program*, *Federal ID* and *Kern COG ID*. The *Kern COG ID* number is a unique project identifier used in the Federal Transportation Improvement Program; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Kern COG ID*. Note this list includes only federal funds obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation.

This report indicates that approximately \$105 million in federal funds were obligated for transportation projects in the region between October 1, 2006 and September 30, 2007.

The obligated federal funding consisted of approximately \$2 million of Federal Highway Administration (FHWA) funds for bicycle/pedestrian facilities; six projects had bicycle/pedestrian components. \$1.2 million of Federal Transit Administration (FTA) funds were obligated for transit projects and \$1 million was transferred from FHWA to FTA for transit projects.
